

Main Street Corridor

Physical, Civil and Structural Improvements

From Buffalo Bayou to Pierce Avenue in downtown Houston

Brick Pavers and
Facility Enhancements at Rail Stations

As part of a larger scheme to bring Light Rail into downtown, the TIRZ participated in funding a complete repositioning of the existing infrastructure on Main Street. The TIRZ assisted with contributions included which improvements to passenger boarding stations, lighting, signage, sidewalk enhancements, traffic signal upgrades, waterproofing of basements and numerous beautification enhancements.
